

TITLE: HAZWOPER Awareness

TARGET POPULATION: This program is intended for persons who need, or who anticipate needing, to know the contents of the federal regulations governing operations at a hazardous waste work site, treatment, storage, and disposal facility, or emergency response situations.

OVERALL LEARNING OBJECTIVES:

- Know what different kinds of operations and facilities are regulated by the Final Rule.
- Know where in the Regulation to reference the clauses that apply to your job situation.
- Assess how well your organization is complying with the Final Rule and understand your company's strengths and weaknesses.
- Understand the types of employee training that are available through the Midwest Consortium for Hazardous Waste Worker training.

EXERCISE – HOW DOES YOUR COMPANY'S PROGRAM SIZE UP?

SECTIONS OF THE FINAL RULE STANDARD

- Site Characterization.
- Site Remediation.
- Emergency vs. HAZMAT Response Teams.
- Generators and Transporters.
- Training Sections (Site Remediation and Characterization).
- Training Sections (Off-Site Emergency Responders).
- Treatment, Storage, and Disposal (TSD) Facilities.
- Training Sections (TSD Facilities).
- Other OSHA Standards Referenced Within the Final Rule.
